

DEPARTMENT OF PUBLIC HEALTH  
LANSING, MICHIGAN 48914

April 26, 1968

Mr. Joseph Szalay  
40951 Greenbriar  
Plymouth, Michigan 48170

Subject: Dial Trucking Company - Wayne County

Dear Mr. Szalay:

This letter will confirm our conversation made on April 16, 1968, when Mr. Glenn Brown of the Wayne County Health Department and I inspected your landfill operation in Plymouth Township. During our inspection we noticed the following conditions which we believe should be brought to your attention in writing:

1. All refuse must be covered at the end of each day by six inches of earth fill.
2. The salvage material should be kept strictly away from the operating face of the landfill.
3. The disposal of hazardous liquid wastes, including sewage, paint thinners and oils, shall not be allowed on a sanitary landfill unless special provisions are made for such disposal through the health department having jurisdiction.

We are pleased to note the improvement that has been made at your disposal site and request that you continue upgrading the operation, including correcting the above items, to full compliance with the requirements of Act 87, Public Acts of 1965.

Very truly yours,

LaRue L. Miller, Chief  
Section of Environmental Health  
Division of Engineering
